

# Red Rock Remodel Keeping You Informed

**March 23, 2006**

## Good Things are Happening in Sedona!

Tiffany Construction has stopped stop general construction for Spring Break until Sunday, April 30, except for some minor excavation activities, known as potholing, on SR 89A. Tiffany has scheduled potholing at 6:30 a.m. on Tuesday and Wednesday, March 28 and 29. The work will be confined to the following general areas:

- The pavement at the east edge of the northbound lane of 89A in front of Pink Jeep Tours.
- The parking spaces and edge of sidewalk in the vicinity of the north side of Looking West.
- The parking spaces in vicinity of the Trading Post.
- The parking spaces in front of Cheers & Sedona Fudge Company.

In order to ensure that they have access to the pothole locations, Tiffany plans to rope off the necessary parking spaces at all of the pothole locations early Tuesday morning before motorists begin parking. As soon as potholing work is completed in an area, Tiffany will remove the barricades, reopen the parking space(s) and move on to the next location.

Tiffany believes that they may be able to complete the work on Tuesday.

Potholing is used to determine the location of underground utilities. Potholing involves limited excavation to expose utilities lines and determine their exact location. There may be short periods when parking and access will be disrupted.

City staff and representatives from Tiffany Construction, the City's contractor, will hold the next update meeting for anyone interested in the project on Friday, **April 7 and April 28 at 8:00 a.m.** at the Wayside Chapel.
